[Lami S Theorem Experiment Pdf Download](#)

By using Lami's theorem

$$\frac{T}{\sin(180 - \theta)} = \frac{T}{\sin(180 - \theta)} = \frac{mg}{\sin(2\theta)}$$

Since $\sin(180 - \theta) = \sin \theta$ and $\sin(2\theta) = 2 \sin \theta \cos \theta$

We get
$$\frac{T}{\sin \theta} = \frac{mg}{2 \sin \theta \cos \theta}$$
